ASK THE BEAUTY EXPERT

cosmetic dentist

Q Can you recommend a quick, professional in-chair whitening system? Jen, Brisbane

A "You can get Philips Zoom QuickPro (\$199) done in about an hour. It's a two-step process where a layer of hydrogen peroxide is applied to the teeth then a sealant is applied to lock the peroxide in place and start the whitening," explains Dr Michael Cai, principal dentist at Pitt Street Dental Centre in Sydney. "While every person is different, you can ordinarily expect your teeth to appear four shades whiter. And the good news is, most patients experience little to no sensitivity."

NEVER-ENDING BRONZE

Keep your summer glow going by using face tan or liquid bronzer across your hairline, along the nose and cheeks, and under your jaw. Blend with a big, fluffy brush.

Revlon PhotoReady SkinLights Face Illuminator in Beach Bronze \$29.95

Pastel hair

Give your hair a fun pop of colour with Keune Color Craving \$29.95 at-home wash-out dyes. If you would prefer a softer look, like January's, leave on for less developing time.

If you feel a cold sore coming on, open a vitamin D capsule and squeeze the liquid onto the affected lip area. The inflammatory properties will help reduce the sore.
